

**Dr. Harinder Pal Singh Missan, University of West Indies:**

Dr. Missan is a Lecturer in Materials Science at Physics Department, University of West Indies, St. Augustine, Trinidad & Tobago. He holds a Bachelor in Science degree (1997) with specialization in Electronics, a Master's of Science degree (1999) in Applied Physics with specialization in Materials Science and Microelectronics and a Ph.D. degree (2003) in Applied Physics, all from Guru Nanak Dev University, Amritsar, India. He has more than ten years of teaching experience at university level. He has been teaching various subjects of Physics, Electronics, Applied Physics and Materials Science to undergraduate and graduate students at various universities. His research interests include developing new and novel materials for applications in various fuel cells, lithium batteries and solar cells. He has attended various International conferences and has published more than 17 publications in International peer reviewed journals.
